SOLDIERS IN THE MUD OF FRANCE AND FLANDERS, THROUGH THE
STORMS OF THIS WINTER, BUY LIBERTY FOR THE WORLD WITH
THEIR DEEDS. WILL YOU HERE AT HOME, SAFE AND WARM AND
COMFORTABLE, PROVE A SHIRKER AND SLACKER WHO REFUSES TO
BUY LIFE FOR LITTLE CHILDREN WITH YOUR DOLLARS?

Day and night in the No Man's Land between the last defences of life and the front trenches of death the Hospital for Sick Children is out with its battle patrol of Nurses and Doctors fighting back the forces of disease and death from the tortured bodies of helpless babes and friendless boys and girls

LET YOUR MONEY BE MINTED INTO THE GOLDEN KEYS THAT OPEN THE DOORS OF HEALTH AND HEALING TO THE LITTLE CHILDREN WHO LANGUISH IN THE PRISON HOUSE OF PAIN

THE HOSPITAL FOR SICK CHILDREN

A BANNER YEAR IN ITS GREAT WORK

THE STORY OF OUR FIGHT AT HOME

Hospital reports are certainly not, in the opinion of the general public, in the class of books which can be opened with expectation and closed with pleasure. And yet, for the past forty-two years, tens of thousands of the good people of Ontario have not only read the annual story of this Charity, but have responded generously to its appeals for aid in its great work of mercy.

If a book or booklet comes from the heart it will contrive to reach other hearts, and to bring about this result is the effort of one whose hand, for the past thirty-seven years, has been active, day in and day out, in the work of this institution, which cares for the sick children of Ontario.

Every paragraph in this report is interesting. The figures given tell their own story—and it is a grand story of how thousands of little lives are brought back to home and health instead of passing through one of the many doors which death opens to let out life.

This year of all the years in its calendar the Hospital for Sick Children appeals to the people at large for aid.

The Trustees, in asking you to read the story of the past year—the work that has been accomplished in twelve months—desire to point out that the cost of food—of Hospital supplies—has so materially increased the cost of maintenance that a deficit has to be faced—and in consequence a largely overdrawn bank account.

The Trustees know full well the tremendous drain upon the purses of the people at large, who have been called upon to aid in every form, the funds that are being raised through the Red Cross, the Patriotic, and other organizations, in connection with the War.

Britain and her Allies are fighting the battle for the freedom of the world—and the Hospital for Little Children is fighting in a war—a hand-to-hand conflict with disease—yes, a war to save the lives of our little ones, the sick, the crippled children of this province, who fill the cots and beds of a great Charity.

The Hospital is in the front trenches of “A war that never ends” in its conflict with disease.

Shrapnel, grenades, high explosives, hurl back the enemy and save thousands of soldiers at the front. Dimes, dollars and cheques are the ammunition absolutely essential for the Hospital’s great fight for thousands of Ontario’s children at home.

Every dollar given to the Hospital is a dollar subscribed to the Liberty Loan that opens the prisons of pain and the Bastilles of disease, and sets little children free to breathe the pure air, and to rejoice in the mercy of God’s sunlight.

A REVIEW OF FORTY-TWO YEARS, 1875-1917.

The Hospital to-day has just completed its forty-second year of service; and the Trustees, with hearts full of gratitude to those who have so generously from year to year contributed to its great work, present in this printed form to the people of this city and province an account of their stewardship of this noble institution, which has, as its mission, the care of the helpless, the sick, the crippled and the deformed. It is a report to the public about its service to little children, of its management, of its physicians, surgeons, nurses, and an account of the year's finances.

Since 1875 it has treated 32,893 in-patients, and 311,025 out-patients, 162,428 girls and 181,490 boys; a grand total of 343,918, or an average of 8,189 per year.

Of the in-patients, 24,944 were from Toronto and 7,949 from other parts of the Province; 15,692, or 47½ per cent., were cured; 9,700, or 29½ per cent., improved.

WORK OF THE PAST YEAR.

From the 1st of October, 1916, to the 30th of September, 1917, the total number of in-patients admitted was 3,740, an increase of 695 over 1916. Of these 1,545 were girls and 2,195 boys.

The largest number of in-patients treated in any one day was 247, an increase of 12 over 1916; the smallest number 170, and the daily average was 203.

In the out-patient department there were 39,654 attendances; an increase of 51 over 1916.

RESULTS OF TREATMENT.

Last year of the 3,740 patients admitted, 2,126, or 57 per cent., were discharged cured; 892, or 24 per cent., improved; 160, or 4 per cent., unimproved; 379, or 10 per cent., died, and 183, or 5 per cent., remained in the Hospital.

Of the 39,654 out-patients, the final results are not reported by parents to the department, and it is impossible to give the actual results of treatment, but the staff claims that about 31,723, or 80 per cent. of those who received treatment were cured, and at least 10 per cent. improved.

The large percentage of in-patients discharged cured, viz., 57 per cent., and of out-patients 80 per cent., an average of 68½ per cent., if added to the percentage of in-patients improved—24 per cent.—and of out-patients 10 per cent.—an average of 17 per cent. improved—a total of 85½ per cent. of the whole number of patients being in the two classes of cured and improved, shows, we think, the hopefulness of the work in a Children's Hospital.

The death rate includes, as always, a number of little ones admitted too late for human aid to prolong life, and last year's records show a greater number of infants and fatal accident cases.

Of the 379 deaths, 150 were girls and 229 boys; 34 were in the Hospital less than 2 hours; 71 less than 8 hours; 130 less than 7 days; 51 less than 2 weeks; 43 less than 4 weeks; so that 329, or 87 per cent., were beyond hope on the date of admission.

SURGICAL STATISTICS.

Last year there were 1,140 surgical operations performed in the In-Patient Service, and 2,394 in the Out-Patient Department—a total increase of 393 operations performed, compared with 3,141 the previous year.

NATIVITY AND RELIGION OF PATIENTS.

Of last year's in-patients, 1,787, or 47½ per cent., were from Canada; 880, or 23½ per cent., from England; 91, or 2½ per cent., from Ireland; 177, or 4¾ per cent., from Scotland; 23, or ½ per cent., from the United States; and the remainder, 782, or 21 per cent., from foreign countries.

Of 3,740 in-patients, the religious denominations were as follows: 2,703, or 72½ per cent., Protestants; 463, or 12½ per cent., Roman Catholics; and 574, or 15½ per cent., other religions.

The Hospital is absolutely non-sectarian—children of all creeds and nationalities admitted.

AGE AND SEX OF PATIENTS.

Of the 3,740 in-patients admitted, 862 were under one year, 359 one to two, 246 two to three, 281 three to four, 236 four to five, 205 five to six, 276 six to seven, 245 seven to eight, 206 eight to nine, 208 nine to ten, 171 ten to eleven, 150 eleven to twelve, 131 twelve to thirteen, 113 thirteen to fourteen, 51 fourteen to fifteen.

Of the 3,740 in-patients, 1,545 were girls and 2,195 were boys. Of the 39,654 out-patients, 19,650 were girls and 20,004 were boys.

DAYS' STAY IN HOSPITAL OF EACH PATIENT.

Last year the total days of Hospital care of the 3,740 in-patients was 75,684. The previous year the total days' treatment was 72,783.

The average days' stay of each patient for 1917 was 20 $\frac{1}{4}$. In 1916 the average was 24.

The average days' stay of patients is found by dividing the total number of in-patients, 3,740, into the total days' stay, 75,684, of all patients in the Hospital for the year.

THE COST PER PATIENT PER DAY.

The cost per patient per day is arrived at by adding all the days that each patient has been in the Hospital from October the 1st, 1916, until September the 30th, 1917, and then dividing the days into the total expenditure.

Last year, 1917, the cost per patient per day was \$2.51, or \$50.83 for the 20 $\frac{1}{4}$ days' stay of each patient.

The total number of in-patients, 3,740, were given 75,684 days' treatment at a total cost of \$189,945.07.

Our cost per patient in 1917 shows an increase of sixteen cents (16c), the cost the previous year being \$2.35 per patient per day. In view of the increased cost for supplies, we think this rate is very fair.

A PROVINCE-WIDE SERVICE.

Last year of the total, 3,740 in-patients, 646 were admitted from 254 places outside the City of Toronto. In 1916 there were 592 from 242 places.

A NOTE TO THE MUNICIPALITIES.

Many people who reside outside of Toronto, and some perhaps in the city, are under the impression that because the City of Toronto and each municipality in Ontario which send in patients to the Hospital pay \$1.25 per head per day, as directed by the Act of the Provincial Legislature, that this amount defrays the total cost of treatment of each patient.

We wish, therefore, to explain to the people at large and to the municipalities that the \$1.25 per head per day pays only part of the cost. This \$1.25 for the city and country patient is supplemented by 30 cents per head per day by the Ontario Government, making a total of \$1.55. The cost necessary for treatment of each patient last year was \$2.51 per day, and after deducting the \$1.55 there was still a shortage of 96 cents. This 96 cents per patient per day, therefore, was the free treatment given by the Hospital, and amounted in 1917 to about \$68,500, which sum has to be made up by the donations of the people of Toronto and other parts of Ontario.

SCHOOL LIFE IN THE HOSPITAL.

The School was established in 1892, and the Toronto Board of Education still continues its good work of maintaining a teacher in the Hospital.

Last year 200 boys and 111 girls, a total of 311 patients, received instruction, or a daily average of 40.

BACTERIOLOGICAL AND CHEMICAL LABORATORY.

The Pathological Department, where bacteriological, chemical, and other examinations so necessary to clinical work are carried out, has had an exceedingly busy year, and great advantages have accrued to Hospital patients.

The routine work for both in and out-patients shows many blood examinations, bacteriological examinations, throat cultures, urinalyses, lumbar punctures, autopsies and typhoid tests.

TRAINING SCHOOL FOR NURSES.

During the past year 27 nurses were graduated, making a total number of 356 graduates since the Training School was established in 1886.

The work of the School for 1917 has been very gratifying, especially when one considers the unusual conditions caused by the War. Thirty-one graduates of the Hospital for Sick Children have gone overseas for military service.

A perusal of the number on the Training School staff will give some idea of the multiplicity of the nurses' duties: Superintendent, assistant superintendent, second assistant, teacher of preliminary course, night supervisor, supervisor of residence, graduate nurses in operating-rooms, wards, out-patient and dental departments, and milk laboratory; instructors in massage, dietetics, pharmacy and gymnasium. There are 98 pupil nurses, including 24 probationers, 25 first year, 25 second year, and 24 third year nurses.

An instructive course of lectures was given by the physicians and surgeons in 1917 for probationers, junior, intermediate and senior nurses.

THE ORTHOPEDIC DEPARTMENT AND APPLIANCE SHOP.

Last year of the 3,740 in-patients admitted, 330 were treated for deformities as follows: 18 bow-legs; 44 club feet; 7 knock-knees; 6 wry neck; 31 Pott's disease; 4 curvature of the spine; 84 dislocations and fractures; 24 tubercular disease of the hip, leg, knee, ankle, arm, elbow and wrist; 86 infantile paralysis; and 26 miscellaneous. Of the 39,654 out-patients, 1,946 were orthopedic cases.

Four hundred and fifty splints and appliances were turned out of the Orthopedic Shop last year—an enormous output—for in-patients, out-patients and private patients; 10 spinal braces; 17 hip splints; 23 knee and ankle braces; 40 club feet splints; 25 leg braces; 115 flat foot plates; 24 bow-leg splints; 45 night splints; 20 Goldwaite's supports; 16 plaster and aluminum jackets and shoulder supports; and 115 miscellaneous appliances.

OUT-PATIENT DEPARTMENT AND DISPENSARY.

The attendance during the past year was 39,654, of whom 19,650 were girls and 20,004 boys. The largest number treated in any one day was 196; the smallest number 75; the daily average 130.

The total number 39,654 out-patients were divided among the different clinics as follows: 11,157 were medical, and 12,485 surgical; 3,406 ophthalmic or eye cases; 7,049 ear, nose and throat; 1,946 orthopedic; 1,977 tubercular; 788 attended the whooping-cough clinic; and 846 the well babies' clinic.

The increase of 217 operations in the adenoid and tonsil clinics last year called for extra nurses, accommodation, and an additional operating day every week.

The Dispensary is one of the busiest departments in the Hospital. Last year there were filled 32,800 prescriptions and daily orders for solutions, chemicals and ward requisites for both in-patients and out-patients.

The greatly increased cost of drugs and surgical instruments in the treatment of such large numbers of patients, as last year's figures show, has been keenly felt.

X-RAY DEPARTMENT.

The Hospital X-Ray Department stands to-day second to no other in its service and importance. Last year's records show an increased amount of work done over any previous year: 3,700 skiagraphs were taken; 200 X-Ray treatments for different diseases; and 740 fluoroscopic examinations.

The radiographs, which included in-patients, out-patients and private patients, were as follows: 620 dislocations and fractures; 151 hip cases; 296 bone diseases; 800 chest and lung conditions; 100 foreign bodies located; 455 miscellaneous, including dental, stomach and intestinal cases. The equipment in this department is one of the best in Canada.

THE INFANT AND BABY WARD SERVICE.

A marvellous record for 1917—there were 1,162 babies admitted as in-patients, besides thousands of infants who attended the out-patient clinics.

The youngest baby admitted was 1 day old; the daily average number 75; and the figures for 1917 show a reduction of 22½ per cent. in infant mortality compared with 1916.

A vast amount of preventive service is accomplished by the "Follow Up" system from the Hospital as a centre by the Health Department nurses, so many of the baby feeding cases being treated at our Out-Patient Clinics.

The year's routine in the Chemical Research Laboratory of investigation, tests and analyses for the saving of infant life, thus preventing disease by a knowledge of its cause, has rendered a direct aid in this service. Very few realize the value of such a Laboratory, or are aware of the time required to produce one small result, yet a total of 837 analyses were made last year.

The Trustees desire, in connection with the Research Laboratory, to express their gratitude to Mrs. Teagle, wife of Mr. W. C. Teagle, President of the Imperial Oil Co., Toronto, for the continuous generous gift of \$1,200 a year in aid of this department. This donation has enabled us to do magnificent work in the line of research.

GYMNASIUM WORK.

Last year a daily average of 14 attended the Gymnasium in the Hospital, which is under the supervision of an experienced instructress.

A total of 3,275 corrective treatments were given to in-patients, out-patients and private patients—shoulder and chest deformities, curvature of the spine, infantile paralysis, and wry neck being among the cases treated.

In the Gymnasium at the Nurses' Residence a course in gymnastic exercises, physical, and swimming pool instruction is included. This is the only Hospital on the continent that has a gymnasium for its nurses.

MASSAGE TREATMENT.

Last year 148 patients received massage, 52 in-patients and 96 out-patients; some almost daily; a total number of 2,825 treatments.

The knowledge and practise of massage in children's hospitals has had marvellous results in cases of spinal curvature, rheumatism, sprains, fractures, dislocations, indigestion and wasted bodies from lack of nutrition.

The nurses in the Training School also have the advantage of a course of instruction; lessons and demonstrations being given weekly by the Masseuse.

THE PASTEURIZATION DEPARTMENT.

To meet the ever-growing demands for pasteurized milk and infant feedings, prepared by special prescriptions and formulas, the Hospital has an excellent Milk Laboratory, with an equipment that is first-class, modern and up-to-date.

In 1917 there were 110 gallons of milk pasteurized daily; 700 bottles of milk and cream distributed daily; and 900 bottles of baby feedings prepared daily for Hospital and outside babies—is this not a record?

DIETETICS.

An important and efficient Culinary Department, a Diet Kitchen and Baby Feeding Laboratory are maintained in the Hospital.

A Domestic Science graduate is in charge, who also teaches invalid cookery to nurses, who prepare semi-solids, light diets and special prescribed diets.

A six weeks' course is also given in dietetics in the Nurses' Residence, to the probationary class; and a two weeks' course in the preparation of baby feedings in the Milk Laboratory.

THE DENTAL SERVICE.

The Dental Department, established in 1912, continues to be an effective feature of Hospital equipment. The object is to oversee the teeth of all inpatients.

In the X-Ray Department many skiagraphs are taken daily of children's mouths, as an aid to the diagnosis of different diseases. In cases of St. Vitus' Dance and heart trouble, a radiograph is taken of the patient's teeth.

The records of 1917 show a busy year's work accomplished:—1,101 patients examined, 930 extractions, 374 treatments, 493 fillings, and 193 miscellaneous, including 87 cases of pyorrhea.

THE HOSPITAL LAUNDRY.

It is behind the scenes—but an absolutely essential plant, and its service in its output and effects is sometimes overlooked.

Washing machines, ironing boards, body and collar ironers, rotary extractors, mangles, drying cabinets—all the machinery throughout is run under electric panel-board control.

Over two million pieces are washed in the Laundry every year. One week's record shows 42,000 pieces:—For patients and cots, 35,500; staff, nurses and employes, 4,500; residence and hospital linen, 2,000.

THE CENTRAL POWER STATION.

The Hospital's Plant—Light, Heat and Power Station—which has been undergoing a complete re-modelling the past year, makes its own light; heats five separate buildings in the winter season, and sends steam to all parts of the buildings in summer and winter for sterilization purposes.

It has also its own refrigerating branch—an ice-house where ice is made and stored until needed. The blocks freeze in about 10 hours' time, and 1,000 pounds are used in some wards in a day. Fully 12 tons of ice per day would be needed to replace the refrigerating plant—for ward purposes, meat refrigerators, ice cream freezers, milk, drugs and general cold storage.

NOTES FROM LAST INSPECTION OF DEPARTMENT OF HOSPITALS.

Dr. Helen MacMurchy, Inspector of Hospitals for the Ontario Government, says:—

“Every part of the Hospital for Sick Children is in perfect order. No pains, no thought and care have been spared to make it as perfect as it can be. The equipment is all that can be desired. The Out-Patient Department is a model of what such a department should be. The management is excellent and the spirit of the whole institution is a fine spirit. The visit of inspection was a great pleasure.”

BEQUESTS IN THE YEAR.

The Trustees acknowledge, with thanks, bequests from the estates of: H. James, Brantford, \$250; S. W. McClung, Sonya, \$175; H. Woods, Aylmer, \$1,277.38; R. D. Schermehorn, Napanee, \$225; J. F. Rogers, Essex, \$100; Miss J. Collins, Farran's Point, \$712; W. Warren, Montreal, \$225; Mrs. J. Allison, Ingersoll, \$25; H. Cawthra, Toronto, \$25; T. Mills, Toronto, \$1,157.07; R. Maloney, Toronto, \$200; R. Davies, Toronto, \$1,000; Mrs. C. S. Scott, Kingston, \$50.50; Mrs. M. E. Wilson, Toronto, \$500; Mrs. J. Bell, Wooler, \$100; Miss B. Heyden, Toronto, \$984.11; Mrs. M. Pfeiffer, Preston, \$1,405.98; Mrs. M. S. Washington, Stouffville, \$102.30; C. Durant, Chesterville, \$46.66; D. Clark, Toronto, \$475; T. Woodhouse, Toronto, \$225; J. E. Shepherd, St. Thomas, \$1,000; J. Clark, Toronto, \$1,032; H. Mason, Toronto, \$347.06; Miss M. A. Fryer, Thistletown, \$27.60; J. Edgeworth, Toronto, \$1,780.30; Pte. T. Hilyer, “Somewhere in France,” \$312.93; L. J. Cosgrave, Toronto, \$333.33; R. R. Newborn, New Toronto, \$19.46; Mrs. S. A. Watson, Norval, \$300; Mrs. A. Beecroft, Owen Sound, \$910.19; Mrs. M. C. Norman, Toronto, \$500; Rev. J. C. Anderson, Toronto (for cot), \$3,503.09; T. Davies, Toronto, \$4.88.

FINANCING A HOSPITAL.

The receipts applied to maintenance account last year were \$159,425.80, while the expenditure on the same account was \$189,945.07.

While there has been an increase in the receipts as compared with the previous year of \$9,607.71, there has also been an increase in the expenditure of \$18,888.08. It is the expenditure account that worries managers of hospitals, for the outpour of money is continuous and never ending.

The fuel supply for the Hospital during the past year has been a heavy expenditure, and in order to secure the necessary supply of coal for the present winter the Trustees were obliged to store 750 tons at a cost of nearly \$5,500, which is included in last year's expenses. This increased cost of fuel, increase in wages account, dispensary and other supplies, and nearly 700 extra patients, all help to account for the increase in the expenditure last year.

The claims upon the Charity increase every year. For instance, last year there were 3,740 in-patients, as compared with 3,045 the previous year, an increase of 695; so that as the demand on the Hospital increases the demand for money upon the public of this province to maintain the Charity must also increase.

The revenues of the Hospital for Sick Children, though administered with strictest economy, are every year taxed to their utmost by the legitimate claims that the Charity has to face. The business of financing the Hospital grows with the usefulness of the institution. The Trustees feel that no institution of its kind in any part of the world gets better value for its money than this Hospital.

The fact is that under present conditions the up-keep of all Hospitals is a very serious question. It requires constant watching of expenditure over every department, so that not one cent of unnecessary expenditure may be made in connection with maintenance.

NEW COTS DURING THE YEAR.

The following cots have, by the payment of \$2,000, been named in perpetuity in the Hospital in College street in 1917:

Rev. John Anderson Cot, by bequest of the late Rev. John Anderson, Toronto; The Beverley Swabey Cot, by Mrs. Florence Swabey, Toronto; The Ellen Forgie Cot, by bequest of the late Miss Ellen Forgie, Smith's Falls, Ont.; The Mrs. Mary Ann Gegg Cot, by Mr. E. Gegg, Toronto; The E. S. Williamson Cot, Dickens Fellowship Memorial, by the Dickens Fellowship, Toronto Branch; The David Smith Keith Cot, by bequest of the late Mr. David Smith Keith, Toronto; The Jessie Mary Keith Cot, by bequest of Mr. David Smith Keith, Toronto; In Loving Memory of George Harris and Nettie Rathbun Hees Cot, by their children, Toronto; The Robert Henry Knowlton Cot, by Mr. W. K. Knowlton, Toronto; Lieut. Evan Ryrie Cot, by his uncle, W. P. Ryrie, of Toronto. Lieut. Ryrie was the son of the late Harry Ryrie.

The following cots, by the payment of \$100 per year, were named to be maintained annually in the Hospital in College street.

The Dorothy Dods Cot, by Mr. John M. Dods, Alton, Ont.; The Mr. and Mrs. Harris L. Hees Cot, by Mr. Harris L. Hees, Toronto.

The following cots, by the payment of \$500, have been named in perpetuity at The Lakeside Home, Toronto Island:

The Mrs. Minnie Gregg Cot, by bequest of the late Mr. Thomas A. Gregg, Toronto; The Thomas Davies Cot, by bequest of the late Mr. Thomas Davies, Toronto.

The following cots, by a payment of \$25 a year, were named to be maintained annually at The Lakeside Home, Toronto Island:

The Doris Alida Salmond Cot, by Mr. Jas. J. Salmond, Toronto; The Evelyn Cot, by Miss Evelyn Alsing, Cannington, Ont.; The So-Cosy Cot, by employees' picnic fund 6497, Met. Div. T. and Y. Radial Ry. Co.; The Reg. Henderson Memorial Cot, by employees of the Tower Canadian, Ltd., Toronto.

A WORD OF THANKS.

We have to-day many of our staff at the war fronts and in Britain. This has thrown an immense amount of work on those of our staff who are still with us. The Trustees desire to place on record their sincere thanks to not only our present staff, but to the many physicians and surgeons of Toronto, not of our staff, who have generously come forward with their valuable services to help us out in these days of great strain in the carrying on of the work of the institution.

SOME PARAGRAPHS FOR YOUR MEMORY.

Armed with your money the Hospital fights to keep the Hun of disease and pain and death from butchering the little children of Ontario as the Hun of Germany butchered the little children of Belgium.

The boys in the trenches do not leave the liberties of the world to perish without the help of their manhood. The Hospital for Sick Children is always in the trenches of its battle for the lives of little children, and you will not leave the little ones to perish without the help of your money.

Soldiers in the mud of France and Flanders through the storms of this winter buy liberty for the world with their deeds. Will you here at home, safe and warm and comfortable, prove a shirker and slacker who refuses to buy life for little children with your dollars?

Let your money and the Hospital's mercy lift the burden of misery that curses the lives, cripples the limbs and saddens the mothers of the suffering little children.

Money mobilizes the powers of help and healing for the Hospital's drive day and night against the trenches where disease and pain and death assail the lives of the little ones.

If you demobilize your dollars at Christmas time the Hospital must demobilize its deeds throughout the year and leave the children to die, with no eye to pity, no hand to help, no arm to save.

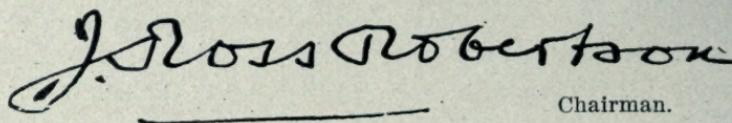

Your conquering cash may be wrought into the Hospital's conquest on that battle front where mercy faces misery, where peace grapples with pain, where joy overcomes sorrow, where life triumphs over death, where the chorus of victory is the laughter of little children, where the anthem of peace is the song of rejoicing mothers.

You, with money in your pocket,
Would give life to those who die,
If you saw the children suffer,
If you heard the mother's cry.

For the Trust,

J. ROSS ROBERTSON,
E. B. OSLER,
J. STRACHAN JOHNSTON,
ROBERT F. SCOTT,

PICTURES OF HOSPITAL LIFE

THE OUT-PATIENT DEPARTMENT

THE WAITING ROOM.

Largest number of patients in any one day last year was 196.

INFANTILE PARALYSIS.

Doctor is applying a plaster bandage to prevent deformity.

IN THE DRUG SHOP.

Last year 32,800 prescriptions and orders filled for in and out-patients.

THE WHOOPING-COUGH CLINIC.

First clinic for this disease in America was established here in 1915.

THE ORTHOPEDIC CLINIC ROOM.

In the Individual Cubicles are four patients—George, with fractured shoulder—Charles, wearing a truss for hernia—Bert has deformed foot—Baby Mary, in last cubicle, has infantile paralysis.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

OUR FIGHT AT HOME—THE BABY WARD SERVICE

RECORD FOR 1917:—TOTAL OF 1,162 BABIES ADMITTED; DAILY AVERAGE 75; YOUNGEST BABY 1 DAY OLD.

SOME OF “BABY’S FRIENDS.”

Healthy fathers and mothers; mothers who nurse their babies; city health officers; the visiting nurse; milk stations; baby clinics; and “Little Mother” classes.

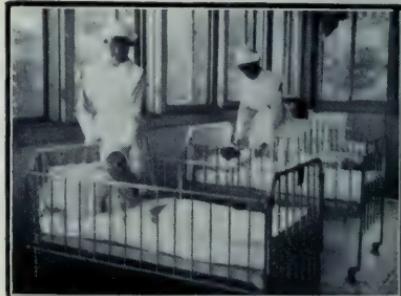

SOME OF “BABY’S FOES”

Unwholesome milk; impure water; impure air; dirty feeding bottles, playthings and floors; flies and mosquitoes; dust and candy.

BABY’S HOSPITAL HOME.

A SUNNY BALCONY.

CHEMICAL LABORATORY.

Last year over 837 analyses were made for the Infant Service.

TWO FAVORITES.

Just ready to go home when photo man called.

Please remit your donation to **J. Ross Robertson**, Chairman of the Board, or to **Douglas Davidson**, Secretary-Treasurer, College Street, Toronto.

Let Your Money and the Hospital's Mercy Lift the Burden of Misery That Curses the Lives, Cripples the Limbs, and Saddens the Mothers of the Suffering Little Children

APPLIANCE SHOP.

Foreman on right turning studs or pins for a Thomas Knee Brace—his assistant drilling bands for splints.

A BUSY CORNER.

Operator attaching bow-leg splints to shoes—on table a pair have just been finished for a boy 3 years old.

OUR ORTHOPEDIC WORK.

YOUR DOLLAR MAY BE A LIGHT IN THE DARKENED CHILDHOOD
OF SOME CRIPPLED BOY OR GIRL.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to
Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

**Every Dollar Helps to Wire the Harp of the Hospital's Kindness
With Golden Strings of Mercy. Your Money Can Touch That
Harp to the Christmas Music of Health for Little Children
and Help for Their Sorrowing Mothers**

MOTHER VISITING CHILD.

Sometimes mother and father come
many miles to visit their boy or girl.

AN EAR CASE.

Little George admitted twice—first
for right ear, second time for the left.

THE GIRLS' SURGICAL WARD.

Three of the oldest girls out on the balcony—all with Pott's Disease.

TUBERCULAR KNEE CASE.

Two nurses are applying a bandage.
Rupert is only 9 years old.

ON THE BABY SURGICAL.

Nurses decorated ward and gave the
little tots a Happy Easter-time.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to
Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

To-day Hundreds of Canadians Are in the Trenches, Fighting in Their Manhood to Bring Death to Tyranny, Because the Hospital for Sick Children Fought to Bring Life to These Same Canadians in Their Childhood

THE BOYS' SURGICAL WARD.

Four boys in cots—with appendicitis, hernia, fracture, spinal disease.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

THE X-RAY DEPARTMENT

A Summary of work done, 1917:—3,700 Skiagraphs; 200 X-Ray Treatments; 740 Fluoroscopic Exams.; 100 Foreign Bodies located.

TAKING X-RAY PLATES.

David, in foreground, had both bones of his arm broken when he fell off a swing. The patient waiting to be skia-graphed swallowed a copper.

THE LATEST APPARATUS.

Operator screening a patient, looking for fluid in chest—image shown on screen—X-Ray causing certain substance to fluoresce.

NEEDLE IN FOOT.

ABSCESS IN TOOTH.

Patient radiographed — received massage—treated in Gymnasium—went home with plaster jacket.

BAD CASE OF SPINAL CURVATURE.

BROKEN ARM.

BROKEN LEG.

NAIL IN ABDOMEN.
X-Ray located it.

DISLOCATED HIP.
Charlie fell out of apple tree.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to
Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

THE TRAINING SCHOOL FOR NURSES

ON MILITARY SERVICE.

Group of Graduates of Hospital for Sick Children—"Overseas."

LOADING A HYPODERMIC.

Instruction is being given to the Probationary Class.

NURSES LEAVING RESIDENCE FOR DUTY IN HOSPITAL AT 7 A.M.

THE MILK LABORATORY.

Nurses receive two weeks' course in Baby Feeding Formulas during training.

EXAMINATION DAY.

After six weeks' course nurses make trays for breakfast, lunch or dinner.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

A Little Money or a Little Grave! The Little Money You Keep in Your Pocket may put one more Little Grave in the Cemetery. The Little Money you pull out of your Pocket keeps One More Little Grave out of the Cemetery.

ACCIDENT CASES BROUGHT TO THE HOSPITAL

Last year there were 730 accidents, 270 in-patients and 460 out-patients. In 1916 there were 535:—175 in-patients and 360 out-patients.

ALL FRACTURED LIMBS.

Bed cradles used to protect broken parts from clothes or any weight.

A BROKEN LEG.

Ball game at school—compound fracture—after operation—a daily dressing.

Many and varied are the mishaps:—Broken legs, 80; broken arms, 146; fractured skulls and injured heads, 16; burns and scalds, 92; bitten—by dogs, 24; rats, 1; cats, 2; dislocated shoulders and fractured collar-bones, 66; cut-off and injured fingers, 33; foreign bodies and poisoned cases, 37; sprained wrists and ankles, 36; thighs fractured, 12; cuts—noses, chins, lips, 139; teeth knocked out, 1; injured eyes, back and knees, 45.

RUN OVER BY AUTO.

Nellie said: "I was picking up my 'centsus' (coppers) in the gutter."

A FRACTURED COLLAR-BONE.

George was picking berries in a mountain ash tree.

Many are the ways injuries were received:—Fell off bicycles, fences, trucks, waggons, verandahs, chairs. Fell on ice, broken glass. Fell out of apple trees, windows. Fell down hills, stairs, front steps and back steps. Struck by autos, motorcycles, swings, baseball bats, street cars, sleighs. Burnt by boiling water, soup, coffee, firecrackers, matches, carbolic acid and lye. Swallowed coppers, poisonous pills and tablets. Tripped over stones. Climbed picket fences. Kicked by horses and injured by exploding cartridges.

AUDITORS' REPORT, HOSPITAL FOR SICK CHILDREN.

To the Chairman of the Trust:—Dear Sir,—We beg to certify that the Receipts and Disbursements of the Hospital for Sick Children have been carefully audited with the vouchers and bank account throughout the year ending Sept. 30th, 1917, and the accompanying statements of Income and Expenditure and Assets and Liabilities, bearing our signature, are a true and correct account of the affairs of the Hospital to that date. The books and work of the office are well looked after, and all desired information has been freely given.

Respectfully submitted,

Toronto, Oct. 9, 1917.

A. C. NEFF & CO., Chartered Accountants.

The J. I. Carter Cot	1915	Beq. of late Mr. J. I. Carter, Sarnia.
The Mrs. Minnie Gregg Cot	1915	Beq. late Mr. Thos. A. Gregg, Toronto.
Edith K. Thompson Memorial Cot	1916	Mrs. K. Thompson and daughters, Belleville.
The Thomas Davies Cot.....	1917	Bequest late Mr. T. Davies, Toronto.

REMEMBER THE SICK CHILDREN IN YOUR WILL.

Look at other pages of this Report and read the names of those who have memorial cots. \$2,000 names a cot in perpetuity. If you cannot find a cot, leave something—if only a hundred dollars—to help to nurse sick little ones. The form to use is:—"I Give, Devise and Bequeath to The Hospital for Sick Children, Toronto," the sum of \$.....

The incorporated name is "The Hospital for Sick Children, Toronto."

OUR CHRISTMAS APPEAL IS TO YOU

A CHRISTMAS SCENE IN ONE OF THE WARDS.

St. Nicholas visits the Hospital on Christmas Eve—toys and joys for every cot.

Please remit your donation to J. Ross Robertson, Chairman of the Board, or to Douglas Davidson, Secretary-Treasurer, College Street, Toronto.

THE HOSPITAL FOR SICK CHILDREN, TORONTO

CITIES, TOWNS, VILLAGES, ETC., FROM WHICH PATIENTS WERE RECEIVED AT
THE HOSPITAL FOR SICK CHILDREN FOR THE YEAR ENDING SEPT. 30, 1917.

COMPARATIVE STATEMENT OF NUMBER OF PATIENTS RECEIVED
FROM PLACES OUTSIDE OF TORONTO, 1891 to 1917.

Year	No. of Places	No. of Patients	Year	No. of Places	No. of Patients	Year	No. of Places	No. of Patients
1891	27	40	1900	188	257	1909	267	383
1892	51	66	1901	193	267	1910	267	441
1893	49	68	1902	184	236	1911	234	384
1894	56	76	1903	216	293	1912	218	341
1895	70	83	1904	196	267	1913	206	323
1896	88	123	1905	217	316	1914	210	394
1897	83	118	1906	231	331	1915	232	499
1898	136	163	1907	254	378	1916	242	592
1899	140	179	1908	241	368	1917	254	646

This record of especially the last twenty-seven years shows that the objection parents have had to sending their sick little ones to the Hospital has been largely overcome.

MEDICAL REPORT.

B. HANNAH, M.B. } Registrars.

NOTE—A large percentage of the surgical cases discharged from Hospital as improved return to the Out-Patient Department for treatment and are ultimately cured.

SURGICAL OPERATIONS.

Table Showing Nature of Surgical Operations from Oct. 1st, 1916, to Sept. 30th, 1917.

Operations	Total	Operations	Total
Removal of glands in neck	7	Fracture of humerus (reduction)	18
Amputation of fingers	1	Fracture of humerus (open reduction)	4
Amputation of thigh	1	Fracture of radius (reduction)	1
Amputation of leg	2	Fracture of radius and ulna (open	
Amputation of toe	4	reduction)	1
Fixation of joint	8	Fracture of tibia and fibula (reduction)	15
Circumcision	5	Fracture of tibia (reduction)	22
Curetttement of bone	2	Fracture of tibia (open reduction)	1
Decompression	7	Dislocation ulna (reduction)	1
Excision of astragalus	4	Fracture of jaw	2
Enchondroma	1	Removal of ranula	2
Sebaceous cyst	2	Branchial cyst (removal)	1
Meningocele (removal)	2	Foreign body in knee (removal)	2
Naevus (removal)	2	Cleft palate (repair)	35
Sarcoma (removal)	3	Hare-lip (repair)	21
Scar (removal)	2	Hare-lip and cleft palate (repair)	2
Incision of abscess	47	General wounds (repair)	5
Incision of abscess (T.B.)	10	Resection of rib	34
Osteomyelitis	7	Syphon drainage	1
Appendicitis	54	Fasciotomy	20
Subphrenic abscess	1	Tenotomy	6
Exploratory incision of abdomen	2	Tendon fixation	26
Intussusception	11	Tendon transplantation	15
Intestinal obstruction	4	Tendon lengthening	38
Peritonitis	1	Sequestrotomy	7
Peritonitis (T.B.)	1	Skin graft	9
Umbilical sinus	2	Transfusion	32
Pyloric stenosis	6	Cystoscopic examination	3
Splenectomy	1	Stone in bladder (removal)	1
Ovariectomy	1		
Manipulation of feet	33	Ear, Nose and Throat—	
Myotomy	3	Dilatation, stricture of oesophagus	13
Nephrectomy	2	Bronchoscopic examination	12
Osteotomy of femur	10	Foreign body in larynx	3
Osteotomy of tibia	23	Fibroid of vocal cord (removal)	1
Albee spinal bone graft	10	Thyroglossal cyst (removal)	1
Plaster jackets	13	Tonsils and adenoids (removal)	75
Ectopia of Vesica (Peter's operation)	1	Foreign body in oesophagus (removal)	8
Torticollis	2	Foreign body in pharynx (removal)	1
Syndactylism	5	Drainage of antrum	2
Operation for contracture following burn	1	Trimming of turbinates	19
Hypoplasias	1	Nasal polypus (removal)	1
Perineorrhaphy	2	Mastoid	78
Hydrocele	4	Pharyngeal abscess (incision)	3
Inguinal hernia (radical cure)	109	Submucous resection of nasal septum	83
Umbilical hernia	4	Paracentesis	1
Ventral hernia	1	Intubation	2
Fracture of clavicle (reduction)	1	Plastic operation on ear	1
Fracture of femur (reduction)	38	Foreign body in bronchus (removal)	1
Fracture of femur (bone plating)	7		
Congenital hip (reduction)	33	Total	1140
Dislocation hip (pathological)	1		

SURGICAL OPERATIONS IN OUT-PATIENT DEPARTMENT.

Removal of tonsils and adenoids	1729	Excision of ganglion	2
Removal of foreign body from foot, arm	6	Excision of cyst	6
Removal of foreign body from nose	5	Paracentesis	78
Removal of foreign body from ear	2	Reduction of fracture of forearm	28
Removal of thumb	1	Reduction of fracture of leg	16
Removal of growth from gum	1	Wounds sutured	48
Removal of teeth	1	Manipulation (club feet, arms)	26
Removal of toe nail	3	Incising tendons (tenotomy, club feet)	28
Removal of tumor from eyelid	2	Circumcisions	175
Incising abscesses	165	Resection of rib	1
Incising infected arm, hand	28		
Incising infected foot	14	Total Out-Patients	2394
Incising lachrymal duct	6	Total In-Patients	1140
Incising glands	18	Total operations for year	3534
Electrolysis, naevus	5

Every Dollar Kept From the Hospital's Power to Save Little Children is a Weight Added to the Burdens and a Grief Added to the Sorrows of This War

A CHRISTMAS MESSAGE

Keep the Home Fires Burning for the Sick Child at Your Door.

Pain-racked little ones, made mighty men of valor by the help of the Hospital twenty years ago, are keeping the wolf from the door of the British Empire.

Shall they come home to find little ones of to-day denied the Hospital's healing help because other calls have closed YOUR ears and YOUR pockets?

'Mid rumble of Red Cross Ambulance—God bless it—and rustle of Patriotic Fund cheque—God prosper it—the voice of stricken childhood pleads—and YOU can change its note from sorrow to joy.

YOUR money drives the Hospital Dreadnought—and it was never so much needed.

You've given some—Give more.

Keep the home fires burning—fires of love and service to the little children.

EVERY DOLLAR GIVEN TO THE HOSPITAL IS A DOLLAR SUBSCRIBED TO THE LIBERTY LOAN THAT OPENS THE PRISONS OF PAIN AND THE BASTILLES OF DISEASE, AND SETS LITTLE CHILDREN FREE TO BREATHE THE PURE AIR AND TO REJOICE IN THE MERCY OF GOD'S SUNLIGHT.
